EXPERIENCE

SopraSteria – India, Noida July 2022- till Date
Senior Service Support Engineer

Project Name: TSIM & B2Bi (Trade Sync Integration Manager)

- Managed end-to-end EDI onboarding, from requirements gathering to setup, monitoring, and issue resolution.
- Performed patching, upgrading, and maintenance of AWS EC2 instances hosting TSIM.
- Established EDI file exchange connections via AS2, OFTP, VAN, SFTP, and FTP, and troubleshooted connection, network, SAP, and TLS/SSL certificate issues.
- Analyzed and resolved Critical EDI mapping issues using IDOC, EDIFACT, VDA, ANSI X12, XML, and CSV standards.
- Extensive experience in SAP module integration, including handling SAP EDI transactions and IDOC processing for effective data exchange.
- Handling EDI messages such as Delfor, ASN, Order, Invoice, 850, 855, 856, 997, 810, 830, and working with Engdat data, including creating Engdat designers and developing Engdat flows.
- Developed automation scripts to improve EDI workflows and reduce manual effort, and also resolved application-level issues to ensure smooth operations and optimal performance.

RESPONSIBILITY

Project 1: Migration of XFB to AMFT for TotalEnergies
Role: EDI Migration Specialist

- Led the migration of multiple interfaces (MVL, AGES, GISA, Luftair, Opentas) to AMFT, ensuring secure SFTP connections and B2B integration.
- Coordinated testing and deployment in both DEV and PROD environments, optimizing data exchange protocols.
- Successfully migrated and ensured seamless B2B connectivity across critical systems.

Project 2: Migration from SupplyOn to Web EDI Supplier Portal

Role: EDI Implementation Specialist

- Managed migration to Digital Technologies, setting up connections and automating data flows between SANDBOX and Web EDI Portal.
- Led testing for DELFOR, DESADV, and INVPRT messages, resolving mapping issues and ensuring smooth transition to production.
- Achieved 100% automated data flows, processing over 800 files across multiple message types.

Project 3: EDI Project Closure (ASML, BizLink, Axway, Ariba)

Role: EDI Integration Lead

- Managed the closure of the EDI project, ensuring successful integration and system functionality for all stakeholders.
- Delivered the project on time, ensuring smooth post-project operation.

Project 4: Montblanc – Gemini Integration & Go-Live

Role: EDI Integration Lead

- Led the integration of Montblanc's distribution network with Gemini, overseeing stock and order migration and system cutover.
- Automated key processes across distribution centers and retail operations in Europe.
- Integrated 58 boutiques in 10 countries, with 100% automation of key processes post-cutover.
