OBJECTIVE

To secure a challenging position in Quality and Process Management where I can apply my 6+ years of industry experience, technical expertise, and continuous improvement skills to drive operational excellence.

PROFILE SUMMARY

- 6 years of experience in the automotive and adhesive industries.
- Expertise in Quality Assurance, Supplier Quality Management, and Process Optimization
- Certified Six Sigma Yellow Belt and ISO 9001 & 14001 Internal Auditor.
- Strong analytical and problem-solving skills in defect reduction and process improvements.
- Proficient in measuring tools: Vernier, Micrometer, Length Gauge, VMS, Tensile Tester, Shear Tester.
- Skilled in MS Office, Oracle, and Quality Management Systems.

CORE COMPETENCIES

- Innovation & Continuous Improvement
- Supplier Quality Management
- Process Audits & Compliance
- Quality Assurance & Inspection.
- Customer Return Analysis

- Strategic Planning & Cross-Functional Collaboration

WORK EXPERIENCE

Lohmann India Pvt Ltd : Quality Engineer (From Aug 23 to till date)

- Conducted Incoming Quality Inspection as per DIN EN standards to ensure raw material compliance.
- Ensured In-Process Quality Inspection, layout audits, and process checks to maintain product quality.
- Handled Supplier Quality Management, including supplier audits, evaluations, and rejection handling by raising NCRs and coordinating CAPA and 8D reports.
- Performed Laboratory Testing & Reporting as per customer requirements to validate product performance.
- Maintained QMS Documentation and conducted internal audits to ensure compliance with ISO and company standards.
- Managed Customer Handling & Complaint Analysis, conducted root cause analysis, and prepared 8D reports; participated in customer audits.
- Coordinated with Sales Teams for resolving new product quality queries and customer-specific requirements.
- Prepared PPAP, SPC, and MSA documentation as per customer and industry standards.
- Handled a quality team and conducted rejection trend analysis and Cost of Poor Quality (COPQ) reports.
- Coordinated with the Product Safety Team for IMDS submissions and forwarded data to customers.
- Coordinated calibration activities as per the defined schedule to ensure instrument accuracy and compliance.

Diploma Engineering Trainee | Mahle Engine Components India Pvt Ltd (From July 2020 to Aug 2023)

- Assisted in quality assurance for engine component manufacturing.

- Prepared layout inspection reports and balloon drawings for NPD (New Product Development) parts.
- Conducted inspections, defect analysis, and compliance audits.
- Handled a small team to ensure production targets were met according to the dispatch schedule.
- Managed rejection parts by raising NCRs (Non-Conformance Reports), coordinating with suppliers for CAPA and 8D report resolution.
- Supported supplier quality audits and customer complaint resolution.

Operator | PVN Engineering From (2017 to 2020)

- Operated and maintained CNC machines for precision part manufacturing.
- Conducted part inspections using Vernier, micrometer, and other measuring tools to ensure dimensional accuracy.
- Prepared jigs and fixtures based on production plans and customer specifications.
- Coordinated manpower for tasks such as fabrication, SPM (Special Purpose Machine) maintenance, and other custom engineering works as per customer requirements.
- Managed outsourcing work by coordinating with external vendors, ensuring timely and quality delivery.
- Assisted in routine machine maintenance and tool calibration for efficient operations.
- Handled delivery scheduling, prepared invoices, and conducted payment follow-ups with customers to ensure smooth order closure.
