Professional Summary

Automation Test Engineer with 5.6+ years of experience designing scalable test automation frameworks across SAP and enterprise applications. Led automation for 160+ SAP test cases, reducing regression cycle time by 65%. Certified in Tosca, ISTQB, and Azure, with proven expertise in API testing, Agile environments, CI/CD pipelines, and delivering business-aligned quality solutions.

Professional Experience

Tata Consultancy Services (TCS)

SAP Automation Engineer - Hasbro

May 2023 - Present

- Automated 160+ SAP test scenarios using Tosca, accelerating test cycles by 65% and enhancing coverage.
- Led SAP upgrade testing (1809 to 2023), identifying and resolving 57 automation script issues and 15 functional bugs.
- Designed and executed robust regression and integration testing strategies using Tosca DEX.
- Delivered audit-compliant test execution reports supporting regulatory inspections.
- Managed 100+ defects using JIRA and HP ALM, improving traceability and defect resolution timelines.

Automation Tester - Tibco Migration (Capital Markets)

Oct 2022 - May 2023

- Engineered Tosca-based test scripts validating 50+ business-critical asset flows during .NET Core migration.
- Prevented post-migration data issues by ensuring 100% transactional integrity with SCD systems.
- Facilitated Agile sprint planning, estimations, and retrospectives in a Kanban framework using JIRA.
- Collaborated with development and DevOps teams to ensure test integration in CI/CD pipelines.

Accenture

Functional Tester - Eversource Telephony

Nov 2020 - Sep 2022

- Executed 4,082 functional and integration test cases across Cisco Finesse and E-gain applications.
- Validated seamless customer-agent routing logic, contributing to enhanced contact center reliability.
- Mentored and trained 3 junior testers, boosting team test execution velocity and accuracy.
- Led weekly QA triage meetings to align testing priorities and coordinate cross-team defect resolution.

Functional Tester - Eversource CX Solar

Nov 2019 - Oct 2020

- Authored 250+ functional test cases for Power-Clerk, covering over 50 customer lifecycle flows.
- Elevated test coverage by 40% through risk-based scenario mapping and conditional logic testing.
- Coordinated with onshore teams to finalize SIT/UAT plans and execute cross-platform validation.
- Earned "Power Performer" recognition for consistent high-quality testing delivery.

Education

Bachelor of Engineering (B.E.) - Information Technology

Pillai College of Engineering, Mumbai University | 2015-2019

Certifications

- Tricentis Tosca: AS1, AS2, AE1, TD1, TD2, Q-test
- ISTQB Certified Tester - Foundation Level (CTFL)

- Microsoft Azure Fundamentals (AZ-900)

- Gen AI at SAP

Technical Skills

Automation: Tosca, JMeter(Knowledge), Selenium.

Languages: SQL, Java

Test Management: JIRA, HP ALM, QTest, Rally

Methodologies: Agile (Scrum, Kanban)

Platforms: SAP, Cisco Finesse
