📍 Ponneri – Chennai.

OBJECTIVE

To work for a progressive organization and contribute to the success of its corporate strategic objectives and social responsibilities from a position putting into practice the skills, knowledge and know-how acquired over the years and thereby enabling the growth of the organization.

KEY SKILLS AND RESPONSIBILITIES

- Proficient in ERP Systems and SAP (Systems, Applications & Products) for production and inventory management.
- Experienced in Production Supervision, Shift Leadership, and Manpower Handling to achieve daily and monthly production targets.
- Skilled in Material Handling and Store Processes, ensuring smooth workflow and material availability.
- Competent in Inventory Management — maintaining optimal stock levels and ensuring accuracy through regular audits.
- Knowledgeable in Traceability Systems and SQL (Structured Query Language) for data tracking and analysis.
- Adheres to 5S, TPM (Total Productive Maintenance), and 4M (Man, Machine, Material, Method) principles to maintain workplace efficiency and quality standards.
- Prepares and follows One-Point Lessons (OPL) and Standard Operating Procedures (SOPs) for continuous improvement.
- Monitors Daily Production Tracking Sheets and OEE (Overall Equipment Effectiveness) to evaluate performance and identify bottlenecks.
- Coordinates daily material planning with suppliers to ensure on-time production.
- Oversees time management and assembly operations to meet production plan targets.
- To control the warehouse & INPWH organization, receiving goods, put away, picking, parts feeding, packing, shipping and analyses the inventory.
- Oversees time management and assembly operations to meet production plan targets.
- Proactively coordinates and troubleshoots production line problems to prevent machine breakdowns and minimize downtime.

EXPERIENCE

SECTION INCHARGE (INPWH)

YANMAR ENGINE MANUFACTURING INDIA PVT LTD

📅 08/2025

📍 CHENNAI

SUPPLY CHAIN MANAGEMENT & PPC

- Managed Inbound operations, Machine Line, Parts Feeding Assembly Line, Inventory, Engine Packing, and Dispatch processes to ensure smooth production flow.
- Coordinated with the Warehouse (WH) team to ensure timely receipt of all parts for the N+2 production schedule, maintaining daily tracking of parts received in INPWH.
- Acted as a liaison between customer and company to ensure seamless operations and communication.
- Ensured Zero Wrong Feeding in the Parts Assembly Line and Accessories Packing, achieving Zero Line Stoppage.
- Oversaw sequence feeding of parts according to the daily sequence plan and ensured parts availability for N+1 production to prevent downtime.
- Promoted smooth operations, effective cross-functional coordination, and productivity analysis for continuous improvement.
- Coordinated and implemented corrective and preventive measures to improve the binning and handling of parts within scope.
- Supervised operations across a 1,00,000 sq. ft. facility with 100+ manpower, ensuring efficiency and safety.
- Led cost-saving initiatives and process improvements on a regular basis.
- Ensured monthly production requirements were met and conducted daily 5S audits within INPWH.
- Enforced strict safety protocols for both personnel and materials, complying with YEMI INPWH safety norms.

EXPERIENCE

SUPERVISOR
TURBO ENERGY PVT LTD
12/2020 - 07/2024 CHENNAI
PRODUCTION & STORE

- Skilled in production planning, shift supervision, and manpower management to meet daily and monthly output targets.
- Experienced in Parts Feeding, Assembly Line Operations, and Machine Line Coordination ensuring zero downtime and smooth workflow.
- Proven ability to coordinate with cross-functional teams to solve line issues and ensure zero machine breakdowns.
- Hands-on experience in Material Handling, Engine Packing, Inbound/Outbound Logistics, and Dispatch Operations.
- Ensures traceability of materials and parts through effective system updates and database management (including SQL knowledge).
- Follows 5S, TPM, and 4M principles to maintain workplace efficiency, organization, and safety.
- Conducts and monitors Internal Audits, RCA (Root Cause Analysis), and CAPA (Corrective and Preventive Actions) for process improvement.
- Implements cost-saving initiatives and continuous improvement (Kaizen) activities to enhance operational efficiency.
- Ensures zero wrong feeding, zero-line stoppage, and on-time part availability for N+1/N+2 production schedules.
- Experienced in supplier coordination and material planning to support daily production requirements.
- Ensures compliance with SOPs, safety norms, and quality standards across production and warehouse areas.

ACHIEVEMENTS

- Successfully maintained 100% on-time production delivery by ensuring continuous material flow and zero-line stoppages.
- Implemented 5S and TPM practices across production and store areas, resulting in a 20% improvement in operational efficiency.
- Reduced material handling time and optimized storage layout through process re-engineering and system updates.
- Coordinated effective supplier follow-up and material planning, ensuring uninterrupted supply for N+1 and N+2 schedules.
- Maintained Zero Lost Time Injury (LTI) record through strict adherence to safety protocols and awareness programs.
- Recognized by management for outstanding performance in Production Planning.

EDUCATION

Diploma in Mechanical Engineering
Swamy Abedhanantha Polytechnic College
06/2017 - 04/2020
SAP (MM & PP)
TECH MAX
03/2025 - 08/2025

PERSONAL INFORMATION

DOB	:	08.09.2001
Father's Name	:	V. Mahendiran.
