FULL STACK DEVELOPER

ReactJS | Node.js | FastAPI | Python | PostgreSQL | MongoDB

Full Stack Developer with 4+ years of experience building scalable, high-performance web applications. Proficient in React.js, Python FastAPI, Node.js, PostgreSQL, MongoDB, and RESTful APIs. Skilled in improving project efficiency through automation and following best practices.

PROFESSIONAL EXPERIENCE

- | | |
|---|-------------------|
| Full Stack Developer | 12/2024 - Present |
| BizAcuity Solutions Pvt Ltd | Hyderabad |
| <ul style="list-style-type: none">• Developed a responsive React frontend with Material-UI, including chat interfaces, admin dashboards, and reusable UI components.• Implemented chat session management (create, rename, delete, history retrieval) to ensure a seamless user experience and data persistence using React.js and FastAPI.• Configured FastAPI backend modules for session tracking, document upload/retrieval, and feedback management integrated with PostgreSQL.• Built REST APIs with FastAPI for file uploads, feedback analytics, and data integration.• Designed interactive analytics dashboards using Recharts to provide visual insights on sessions, feedback, and user activity.• Created reporting dashboards with React.js and Material-UI, featuring server-side pagination, advanced filters, and expandable UI components for data-driven decision making, reducing report generation time by 50%. | |
| Software Engineer | 07/2021 - 11/2024 |
| ValueMomentum Services Pvt Ltd | Hyderabad |
| <ul style="list-style-type: none">• Engineered a scalable admin dashboard using React.js and Redux, incorporating role-based access control (RBAC), user onboarding, and real-time data synchronization through RESTful APIs.• Automated Azure resource deployments with PowerShell to support CI/CD pipelines, ensuring responsive design and efficient version control with Git.• Programmed backend CRUD operations for managing users, roles, and teams using Node.js and Express, delivering secure and robust API endpoints. | |
| Jr. Software Engineer | 02/2021 - 07/2021 |
| ICT Health | Bangalore |
| <ul style="list-style-type: none">• Developed an interactive healthcare portal using Angular for appointment scheduling and virtual consultations with a responsive user interface.• Integrated speech-to-text functionality using Annyang, enhancing accessibility and improving user experience across devices. | |

EDUCATION

- Master of Science in Information Technology – IIIT Hyderabad, 07/2019 – 06/2021
- B.Tech. Computer Science Engineering – Vikas College of Engineering and Technology, Vijayawada, 09/2014 – 05/2018

PROFESSIONAL SKILLS

- **Frontend Development:** Expertise in HTML5, CSS3, JavaScript (ES6+), and React.js for building interactive UI components and delivering seamless user experiences.
- **Backend Development:** Skilled in developing scalable backend applications using Python (FastAPI, Flask) and Node.js (Express). Experienced in designing RESTful APIs, integrating with PostgreSQL and MongoDB, implementing authentication, data validation
- **Responsive & Mobile-First Design:** Skilled in creating websites that are accessible and visually consistent across devices and browsers.
- **Version Control & Collaboration:** Proficient with Git and GitHub, experienced with branching workflows and pull requests for team-based code management.
- **API Integration:** Experienced in connecting frontend interfaces with backend services using RESTful APIs.
- **Web Performance Optimization:** Improved load times and responsiveness through lazy loading, code splitting, and caching strategies.
- **Communication & Documentation:** Strong written and verbal skills for producing clear technical documentation and effective stakeholder communication.
