**8123105999**

**CAREER SUMMARY** – Experienced Automation QA with expertise in automating web applications using Java. Proficient in all stages of the Software Test Life Cycle (STLC) and Agile processes, with a focus on problem-solving and experience in the Ecommerce domain. Seeking a challenging role that offers growth opportunities.

**WORK EXPERIENCE –**

**QA Automation Engineer**  
**Homelane pvt ltd**  
**04/2024 – Present**

**Hyderabad, Telangana**

**Responsibilities –**

- Developed and maintained automation scripts for the Homelane website using Selenium for functional and regression testing.
- Executed sanity and regression tests on various features of the website, ensuring seamless user experience and functionality.
- Created and managed automated test cases in the test suite for continuous integration and deployment cycles.
- Worked with the manual QA team to identify test scenarios for automation.
- Provided Automation signoff upon successful execution of test scripts during release cycles, ensuring no critical defects in production.
- Took on project management tasks, coordinating test activities, tracking progress and ensuring timely delivery of automation scripts and test results.

**Tools & Technologies :** Selenium, Eclipse, Cucumber, Java, Maven, TestNG, Jira

**Automation Test Engineer**  
**SquareYards**  
**06/2022 - 04/2024**

**Hyderabad, Telangana**

**Responsibilities –**

- Developed end-to-end automation scripts using Java, Selenium, and Cucumber to test various application features.
- Leveraged GitHub and Jenkins pipelines for seamless code migration and integration in an Agile environment.

- Conducted functional, copy, and regression testing, tracking defects using Jira.
- Participated in defect triage calls with business teams to prioritize and resolve issues promptly.
- Analyzed and developed test scripts for multiple modules of the SquareYards application.
- Maintained reporting systems and prepared weekly and monthly status reports for stakeholders.

**Tools & Technologies :** Selenium, Eclipse IDE, Cucumber, Java, Gradle, TestNG

**Manual QA**

**Homelane pvt ltd**  
**09/2021 - 06/2022**
