### SUMMARY

Experienced Diploma civil engineer with 6 years of expertise in commercial building construction and interior execution works. Proficient in site supervision, quantity estimation, material procurement, and coordinating with vendors and subcontractors. Well-versed in reading structural and interior drawings, managing day-to-day site activities, and ensuring work is completed with quality and safety standards. Skills in handing finishes, fit-outs, false ceiling, electrical & plumbing coordination for interior projects. Known for on-time projects delivery and strong team collaboration.

### EXPERIENCE

#### 1. SITE ENGINEER

**Vriho Infratech-VR Della group of company** (Feb 2024 - Present)

Project -Vivya apartment at Morais city, Trichy, Tamil Nadu

As a site engineer at the Vivya residential apartment project, I play a key role in managing day-to-day site operations and ensuring quality construction aligned with involves technical execution, team coordination, and efficient problem-solving on site.

- Planning and supervising daily construction activities.
- Overseeing structural, finishing, and MEP works.
- Ensuring safety protocols and quality compliance on-site.
- Tracking DPR, BOQ, and project progress reports.
- Managing material follow-ups and site logistics.
- Liaising with senior engineer, architects, and clients for regular updates.

#### 2. SITE ENGINEER

**TRUE HOMES** -Trichy (Jul 2022 - Jan 2024)

Project -Industrial building at Ambattur, Chennai

Handled complete site execution of an industrial building project in Chennai- Ambattur, from structural works to finishing stages. Responsible for managing daily site operations, coordinating with contractors, and ensuring PEB (Pre-engineered building) works, quality control, material management, and safety compliance.

Key responsibilities:

- Supervised structural and PEB erection activities
- Ensuring adherence to project timeline and quality standards
- Managed subcontractor coordination and labor supervision
- Maintained daily reports and site documentation
- Conducted site inspections and material checks

### **3. GEOGRAPHIC INFORMATION SYSTEMS ENGINEER**

#### **DSM SOFT PVT LTD -Trichy (Jan 2022 - Jun 2022)**

Worked as a Geographic engineer at DSM Soft, specializing in GIS and remote sensing data processing, my responsibilities included map digitization, spatial data editing. Delivered accurate outputs within projects timelines while collaborating with team leads and follow engineers.

Key Responsibilities:

- Performed map digitization and feature extraction
- Processed and validated GIS data
- Collaborated with projects teams to ensure timely delivery

### **4. SITE SUPERVISOR**

#### **VR DELLA CONSTRUCTION -Trichy (Aug 2019 - Nov 2021)**

Started my career as a site supervisor in Trichy, where I gained hands-on experience in day-to-day site execution and workforce management. Responsible for monitoring site progress, allocating tasks to laborers, and ensuring quality and safety standards were met across structural, masonry, and finishing works.

Key Responsibilities:

- Supervised daily site activities and labor coordination
- Monitored construction progress and reported updates to engineers
- Ensuring safety compliance and maintained quality standards
- Managed materials and site-level procurement as needed
- Coordinated with contractors, vendors, and site engineers
