## ABOUT ME

---

EDI Developer with 4 years of experience in designing, implementing, and optimizing EDI solutions for seamless data exchange and compliance.

## WORK EXPERIENCE

---

### Ceva Logistics (CMA-CGM GROUP) – Thane, India

City: Thane | Country: India

#### Software developer

[ 11/10/2021 – Current ]

- Expertise in monitoring and resolving system issues and failure alerts using IBM Sterling Integrator (SI), ensuring seamless EDI operations.
- Allied with business users and assisted with their related requests related to EMEA and APAC regions.
- Successfully onboarded trading partners by configuring secure connections (HTTPS, SFTP, FTP, AS2) and ensuring smooth integration.
- Developed and optimized EDI mappings for XML, CSV, flat files, and SAP IDOCs to meet business requirements.
- Delivered training sessions to business users and collaborated with cross-functional teams, contributing to smooth workflow adoption and participation in 24x7 support rotations to ensure rapid incident resolution.
- Led end-to-end trading partner onboarding, including setup, testing, data validation, and troubleshooting to ensure compliance and accuracy.
- Proficient in EDI standards (ANSI X12/EDIFACT), EDI translators, FTP protocols, and configuration profile setups.
- Delivered comprehensive training to business users, improving their proficiency with EDI applications and workflows.
