Tamiraparani Rotary Club - User & Admin Use Case

Goal

To allow users to learn about the club, view events, register for events, and contact the club without requiring login.

Public User Flow (Visiters)

1. User visits the Tamiraparani Rotary Club website.

2. Reads about the club's mission and owner (AP Annachi).

3. Navigates to the event calendar.

4. Views past, ongoing, and upcoming events.

5. Clicks "Register" on an event of interest.

6. Fills out and submits the event registration form.

Admin Flow

1. Admin accesses the backend dashboard.

2. Admin creates new events with title, description, date, and time.

3. Admin updates or deletes old or canceled events.

4. Admin views the list of event registrations.

5. Admin uploads YouTube video links to embed videos (e.g., event highlights, messages from AP Annachi).

6. Admin adds images to galleries, events, or homepage to visually represent the club's activities.
