SALIN

PROFILE SUMMARY

Experienced Module Lead with **8+** years of expertise in implementing rigorous standards and procedures for precise execution and monitoring of client requirements. Proficient in devising effective plans, test strategies, scenarios, and comprehensive documentation aligned with business, technical, and functional needs. Demonstrated success in executing projects with a consistent **95%** client satisfaction rate. Committed to contributing expertise to an organization that values knowledge sharing and encourages talent development, aiming to advance the development of complex applications through project management and mentoring skills.

SKILLS

- Network Protocols
- Linux
- Database MS - SQL
- EDI/X12 Standards
- Axway Sentinel
- Opentext GXS AI
- Axway Mapping
- Service Now
- Git/Github/Svn
- Axway B2bi
- MFT Managed File Transfer
- Oracale EBS

EXPERIENCE

MODULE LEAD
Nov 2023-Present

- Worked for **5+** customers, including Moët Hennessy, HAVI Logistics, Bayer A.H, Storengy, Tideworks and others, delivering seamless solutions for diverse EDI needs.
- Led the full-scale technical implementation of the supply chain flow for 3PL providers, logistics companies, and warehouse. Additional Experience in Retail, Banking and Manufacturing domains.
- Demonstrated expertise in handling diverse data formats like **Xfi2, EDIFACT, XML, IDOCs, and Flat Files**, translating data to ensure seamless communication and collaboration across systems.
- Managed over 1000 EDI transactions **850, 855, 856, 8fi0, 846, 832,** etc. for **Purchase Order, Invoice, ASN, Warehouse Order and Response, and Claim and Response** to facilitate smooth communication across the supply chain.
- Pioneered the development of new **Inline** functions, providing tailored solutions for customizations, and reducing manual interventions by **30%**.
- Onboarded **20**+ new partners, collaborating directly with EDI service providers to ensure smooth integration processes.
- Gathered and analyzed development requirements; involved in the design, development, unit testing, system integrated testing, UAT testing support, and post-Go-Live hypercare. Achieved a **fi00%** success rate, and ensured precise process flow and data management.
- Implemented scalable, secure cloud infrastructure using **AWS** services, including EC2, S3, and RDS.
- Demonstrated expertise in **AS2, SFTP, FTP, FTPS, and HTTP/S protocols,** facilitating secure and reliable data communication for over **20** partners across various environments.
- Executed comprehensive data transformation strategies utilizing **Axway Mapping Services**, resulting in a streamlined EDI mapping process that enhanced integration efficiency across **20** key partners.
- Leveraged in-depth knowledge of **SQL** to execute **fi00**+ queries, ensuring precise data retrieval for optimized business operations and reporting.

TECHNOLOGY LEAD
July 20fi6- Nov 2023

- Developed and maintained EDI maps using **GXS AI**, enabling seamless data exchange with external partners and internal systems.
- Applied proficiency in EDI standards, including **ANSI Xfi2, EDIFACT, XML**, and **Flat File** formats, to ensure seamless data integration and communication across systems.
- Administered EDI transaction sets such as **8fi0, 820, 824, 850, 855, 856,** and **997**, optimizing data exchange and processing workflows.
- Troubleshot and resolved daily transaction failures via ServiceNow, ensuring prompt resolution to minimize operational disruptions and downtime.
- Utilized expertise in communication protocols, including **AS2, SFTP, FTP**, and **VAN**, to design and implement data transfer solutions, ensuring seamless integration between internal and external systems.
- Created and maintained technical documentation, user manuals, and system guides for EDI solutions.
- Provided troubleshooting support for **fi00+ Oracle EBS** Order Management modules, resolving workflow, setup, and configuration issues.
- Collaborated with Oracle EBS technical team to address complex issues and optimize system performance.
- Designed, implemented, and supported EDI **Managed File Transfer** (MFT) solutions using GoAnywhere, ensuring secure and efficient data exchanges between internal systems and external partners.

EDUCATION

BACHELOR OF ENGINEERING
Himachal Pradesh

PERSONAL DOSSIER

Languages Known: English and Hindi

Interests and Hobbies: Cooking, Exercising, Quizzing

Soft Skills: Leadership, Logical Reasoning, Communication, Creativity

AWARDS AND CERTIFICATIONS

- Achieved Falcon team award from Axway, recognizing excellence in delivering multiple projects and maintaining consistent performance.
- Automation Anywhere Certified Essentials RPA Professional (Automation 360) Automation Anywhere, ·
- AZ-900: Microsoft Azure Fundamentals Certification - Microsoft
