PROFESSIONAL SUMMARY

- Versatile Frontend Developer and UI/UX Designer with 7+ years of experience delivering pixel-perfect, responsive web applications from scratch.
- Directed, executed, planned, managed, led, designed, engineered.
- Developed and deployed a software update, resulting in a 30% reduction in system errors and improving application performance by 25%.
- Led a cross-functional team in improving customer satisfaction, resulting in a 50% increase in positive feedback and a 20% reduction in complaints.
- Executed new social media strategies, amplifying brand presence and engagement, resulting in a 40% follower growth.
- Proven expertise in translating Figma, Adobe XD, and Sketch designs into clean, maintainable code using HTML5, CSS3, JavaScript, React.js, and Next.js.
- Strong command over modern styling frameworks like Tailwind CSS, Bootstrap, and Sass to build scalable, mobile-first layouts with design precision.
- Skilled in creating optimized, accessible, and high-performing user interfaces.
- Adept at translating design concepts into seamless digital experiences with clean, maintainable code.
- Passionate about building scalable web solutions, improving performance, and enhancing user engagement through thoughtful design and efficient development practices.
- Currently advancing Full Stack Development skills with Node.js, Express.js, and MongoDB to handle end-to-end application development.

- o   Web Designer – 14th Jan 2019 to 31st July 2019

6) Mitiz Technologies

- o   UX/UI Designer/ HTML Developer – June 2017 to 12th Jan 2019

INTERNSHIP CERTIFICATION & WORK EXPERIENCE

1). IPWT

- o   Web Designer Trainee: Nov 2014 to April 2015

PROJECTS DETAILS

1) Project: **IOT Sensor App**

Design and develop an IoT-based application that collects real-time environmental data from sensors (temperature, humidity, motion, etc.), transmits it via Wi-Fi, stores it in the cloud, and displays it on a web/mobile dashboard for monitoring and analysis.
