SUMMARY

*Highly skilled Systems Integration Consultant with **3.5+** years of experience and expertise in **Axway B2Bi**, **Workato**, and **AWS QuickSight**. Proven track record in developing, scoping, and testing integrations across supply chain and finance domains. Adept at building optimized workflows, collaborating with cross-functional teams, and delivering end-to-end solutions for global clients.*

EXPERIENCE

Systems Integration Consultant

May 2023 - Present

Nulogy Corporation, Toronto, CA (Remote)

- **Axway B2Bi Development:** Scoped, developed, and enhanced over **18** integration projects involving EDI, XML, and Flat Files, using protocols such as AS2, HTTP, FTP, and SFTP along with agreements to establish and manage flow setups with partner systems.
- **Workato Development:** Designed and implemented **50+** optimized recipes integrating platforms like NetSuite, D365, and Shop Floor (Nulogy), leveraging triggers such as webhooks, schedulers, and API requests. Achieved over **70%** reduction is task consumption in most optimised recipes by incorporating **Ruby** snippets to streamline workflow.
- **eRuby Customization: Sole** developer managed over **200+** custom supply chain label projects (Custom Outputs), contributing significantly to revenue.
- **AWS QuickSight Reporting:** Created tailored visual reports to meet diverse client needs.
- **DAAS Development: Sole** developer for DAAS at Nulogy, working extensively in Snowflake, creating customised analytical reports for customers.
- Visited **Canada** for a business conference and customer site **Go-live** in April 2024.
- Developed transformation interfaces in Nulogy's in-house tool, CPI using XSLT 1.0.
- Authored process improvement documentation on Axway B2Bi and Workato for team Confluence.
- Daily Monitoring & Checks

Assistant System Engineer

Jun 2021 – May 2023

Tata Consultancy Services Ltd. (Client: Coop), Kolkata, India

- **Axway B2Bi Lead Developer:** Delivered multiple complex interfaces for the Franchise project with minimal defects, earning client recognition. Worked extensively with protocols such as AS2, HTTP, FTP, FTPS, and SFTP, developed DML maps involving Flat Files and IDocs, and used metadata to establish and manage flow setup efficiently.
- Migrated **50+** standard interfaces as part of the B2Bi 2.6 migration project.
- Stores Activator **SPOC** of the team. Streamlined store activator setups, ensuring reliable flow between systems.
- Worked on Small Changes for certain interfaces under BAU
- Daily Monitoring & Checks

EDUCATION
