LinkedIn:www.linkedin.com/in/randheer-kumar-149120a3

Objective

- To be employed in a dynamic, fast paced IT environment that involves professional challenge and entry in an organization that appreciates hard work and integrity in carrying out responsibilities.

A Summary of Experience and Expertise

- I have 8 years and 4 Months of experience on Opentext Content server, Opentext GCI, Opentext Exstream Dialogue, Opentext Streamserve, Oentext VIM, Opentext ECM, Opentext Enterprise Information Management (EIM), Opentext Exstream Live, Command Center, Delivery Manager and EWS in various domains (Healthcare and Insurance (P&C)).
- Confidential is an Opentext VIM expert that specializes in Sizing, Design, and Architecture and Implementation of VIM/ICC lifecycle management and SAP FI & P2P FI-MM and FI-SD processes.
- A responsible and Experienced Opentext Streamserver/Exstream Developer , 7 years of experience.Highly skilled in modules Communication builder, Control Center ,Describer, Workshop, StoryTeller, XMLIN,XMLOUT, themes, metadata, overlays .Following all phases of SDLC and timely delivery of project to client. Worked on agile methodology and used tool-Azure DevOps. Proven ability to be strong professional with sound knowledge of new technologies and advance applications.
- Good knowledge in Software Development Life Cycle.
- Strong background working with different Data files creations, their File Formats (delimited, columnar, Print Miner, XML file and their Mapping manually and automatically through copybook.
- Good knowledge about Output file format handling & AFP files, generating PDF, Report files and Output Queue handling.
- Printing industry experience with statements generation and Good knowledge in Composition (Financial statement, Invoice, Insurance, Credit cards, Retail services).
- Have experience on Agile and waterfall methodologies.
- Good at administration of design users, groups and workflow maintenance.
- Experience in coordinating, validating, and undertaking UT, SIT, ST and UAT.
- In the course of my project assignments, I have done Requirement Analysis, Estimation, Extensive Development, Application Maintenance, Functional Studies, Quality Reviews and Testing.

- Excellent communicator, Enthusiastic and Consistent with positive ideas and ability to work in groups with good analytical and innovative skills.
- Stood always supportive to complete the tasks within timelines and has achieved proficiency in completing the work assigned.
- Active participation in Organizational Events and Coordinator for CSR activities (Environment and Child Labor).

CAREER OBJECTIVES

- To become an Opentext Exstream Expert, Opentext VIM, Opentext Streamserve
- Improve my technical and business skills as well as learn new technologies
- Improve my Domain based knowledge

Skill Set

ECM TOOLS : OPENTEXT CONTENT SERVER DEVELOPMENT, OPENTEXT ENTERPRISE INFORMATION MANAGEMENT (EIM)

CCM Tools : Opentext Exstream Dialogue 8, 8.5, 8.6, 9.0,16.0,16.4, 16.6, Opentext VIM

 Messagepoint 20.0.0

Domain : Banking, Insurance and Healthcare,Billing UI, Smart UI

Languages : PHP, PL/SQL, Core JAVA, Objective-C, XML, HTML, VBScript , JAVA SCRIPT

Frame works : SDLC

RDBMS servers : Oracle 11 g

Web Server : Apache Tomcat

Bug Tracking : Application Lifecycle Management

IDE : Eclipse

Tools : SQL Developer, Heroku, Github, Beyond Compare, DiffPDF

Operating Systems : Windows, Unix

Interpersonal : Customer Communication, Problem Solving

Academic Details

Qualification	Branch	University/board	Name of Institution	Year Of Passing	Percentage/ CGPA

B.Tech	Computer Science Engineering	BPUT	O.E.C., Bhubaneswar	2016	7.2
12th	Mathematics & Science	BSEB	Dr.N.Jha College,manigachi (Darbhanga)	2012	61%
10th	Mathematics & Science	CBSE	J.N.V,Ranti madhubani	2009	85.6%

Professional Experience

Organization: Tata Consultancy Services, India

Duration: June 27th 2016 to Oct 30th 2022.

Designation: IT Analyst

Organization: IBM

Duration: October 10th 2022 to Sept 24th 2024

Designation: Senior Data Engineer

Organization: ITISH BUSINESS SOLUTION

Duration: May 16th May 2024 to till date

Designation: Senior Data Engineer

Operation in Exstream and ECM Tools:

- Providing estimations, identifying project tasks
- Highlighting high level risks during the project phases, identifying the mitigation plan and working on it.
- Preparing Requirement Traceability Matrix
- Implementation of opentext content server using JAVA, Apache, ODTS,IIS server, NAS path.
- Design Documents, Coding and Unit Testing
- Design and Development of the live forms and pages.
- Created and defined various output types like DLF, PDF, PS, AFP output
- Developing business process flow charts and use cases

- Worked on page components text boxes, tables, Section tables, flow frames, logos, pictures, shapes, colors, relative
- positioning, headers, flow headers
- Conducting and participating in code reviews
- Managing project Level Documentation
- Handling quality and process internal audits with the quality lead.
- Interact with Client and get all the Project requirements and understand them.
- Provide Estimates and get a sign off on the Estimates.
- Prepare Functional Specification from BRD and get a sign off.
- Walkthrough the Project requirements with offshore team and coordinate the Project from start to end.
- Coding and testing, if some deliveries are required to be managed from Onshore.
- Co-ordinate delivery, unit testing, User acceptance testing and production deployments.
- Production Support and Maintenance Projects

Project #1: OPENTEXT ECM TOOL
Project Description: Project is based on generating different formats of invoices.
Company- IBM
Client- EY
Duration- October 2023-till date
Tools- OPENTEXT ECM 20.2, OPENTEXT CONTENT SERVER DEVELOPMENT, OPENTEXT ENTERPRISE INFORMATION MANAGEMENT (EIM),OPENTEXT GCI
Role- Developer+Support

Responsibilities:

• Leading and managing my team.

• Design & Development

• Provide Solution

• Analysis of business requirements and preparing the Effort documents, Jira

• Review designs, code, and documentation related to the project.

• Training & Cross trainings

• Internal Activities, project management, On-boarding, Appraisal

Worked in OpenText Global Container Interface (GCI)-

1. Standardized API (Application Programming Interface)

2. Supports multiple data formats (e.g., XML, JSON, CSV)

3. Enables real-time data exchange

4. Facilitates integration with various systems and applications

5. Supports batch and transactional processing

6. Provides security and authentication mechanisms

7. Enables data transformation and mapping

8. Supports multiple communication protocols (e.g., HTTP, FTP, SOAP)

Project #2: Streamserve
Project Description: Project is based on generating different formats of invoices.
Company- IBM
Client- EY
Duration- October 2022-June 2023
Tools- Open text Extream 16.6,OTDS
Role- Developer+Support

Responsibilities

- Setting up of Open Text Extream 16.6 applications, control center.

- Enhanced interface with new views for better client experience.

- Working on communication builder, control center, workshop,

- describer, XMLIN, XMLOUT, overlays, images,

- barcode,qrcode,Snow.

- Working on overlays, skilled in production deployment.

- Working on development and deployment of various application, task

Project #3: OPENTEXT ECM TOOL

Project Description: Project is based on generating different formats of invoices. and Design

Company- Infosys

Client- KONE

Duration- May 2024-till date

Tools- OPENTEXT ECM 20.2, OPENTEXT CONTENT SERVER DEVELOPMENT,

OPENTEXT ENTERPRISE INFORMATION MANAGEMENT (EIM),OPENTEXT GCI

Role- Developer

Responsibilities:

• Leading and managing my team.

- **Design & Development**

- **Provide Solution**

- **Analysis of business requirements and preparing the Effort documents, Jira**

Project#4: HP (EXSTREAM) DIALOGUE DESINERS

Technology: AFP Studio**,**Unix, HTML, PL/SQL and SQL,   Oracle 11g

Client: CITI BANK, USA

Role: Developer

Team Size: 2

Project Description: This project dealt with different types of invoice & PIN statements working with Citi. This involved mainly page designing and creating application depend on the business logics using Exstream Dialogue. Output is produced in both PDF, AFP & PUB file. Sometimes we fixed the issues, changes and version upgrading in client server based on the client requirement.

Activities Performed:

- Involved in development, maintenance, bug/defect fixing, UAT and Production deployment
- Gathering, analyzing business requirements and creating technical design documents.
- Input file and requirement analysis by coordinating with upstream.
- Migrate the Exstream applications from Mainframe to UNIX
- Convert Mainframe JCL programs to Unix Shell Scripts to kick the Dialogue Engine for batch and online processing
- E2E Regression testing when version upgrade on Exstream applications
- Enhancements on Page design, Table design, data flow logic, Year end related changes
- Maintaining multiple change versions in Prod and Non-Prod Environments
- Process Flow architecture design
- Exstream database maintenance
- Monitoring the application run time, application settings in Dialogue Manager periodically
- Maintaining work-flow approvals

Projects

- **Project #5:** OPENTEXT ECM
- **Technology:** REST API, OTDS 20.2, JAVA, IIS SERVER
- **Client:** Maine OXY, USA
- **Role:** Developer
- **Team Size:** 5

Project Description: In this application we generate four different types of invoices daily, a statement and a dunning Notice with the help of OPENTEXT GCI, ECM TOOL. There are up to six pages per invoice daily. Invoices are combined in a single envelope for the same customer based on account number. This application has six different types of Print files as input. Using VB.Net application we merged these files to create a single input file and add identification to the page. It has two passes and sort index files used with application. Sorting performed in the sort index file using .Net application. PDF and PS files are the outputs. A report file is also created based on total due for all invoices/statements in each run and the number of pages.

Projects

- **Project #6:** Exstream Dialogue – PDF
- **Technology:** AFP Studio, Unix, HTML, PL/SQL and SQL,   Oracle 11g
- **Client:** 21st Century Insurance, USA
- **Role:** Developer
- **Team Size:** 5

Project Description: Assigned Risk is a Document Output System project for 21st Century Insurance, USA. The project is an approach to move all document generation requirements of 21st Century from the existing Documaker and Documerge based systems to Exstream Software's Dialogue Document Output tool. Dialogue consists of many advanced design techniques that were used within the application. Such techniques includes the use of formulas, advanced tables, Columnar Driver file, Reference Files, Report Files, Static Pages, Dynamic Pages, Formulas, Barcodes, Page Templates, Message Templates and various Output Queues for generating Postscript and PDF outputs.

Projects

- **Project #7:** SAP FI VIM Consultant

- **Environment: SAP ECC 6.0, VIM 7.0**
- **Role:** Developer
- **Team Size:** 5

   Responsibilities:

- Implemented end- end Opentext VIM which includes suggesting the components to the client,ICC/OCR setup, Archive Link Configuration, document type configuration, process type configuration and process option configuration and provided guidance in the planning and design.
- Advised the client business on the best high-level process flow design to follow for Opentext VIM based on their requirements.
- Responsible for leading the design, configuration and test the SAP open text Vendor Invoice Management(VIM) solution with integration to SAP FI- AP and SAP MM-LIV invoices.
- Configured the process types and mapped them to the process types in opentext vendor invoice management(VIM).
- Created custom roles and configured for role determinination in process types.
- Worked on different invoice standards and multiple formats that includes single and multiple formats that includes single sided invoice multi folded invoice and multipage invoice with variant dpl.
- Helped in developing and designing vendor invoice management(VIM) reports.

Internships

- **Title: Social media and Social Sharing/ Graduate Internship**

- **Objective:** To maintain the day to day financial transaction (cash inflow and cash outflow) of a company and to produce financial reports of the company.

- **Technology:** PHP.

- **Group Strength: 4** members.

- **My Role:** Designing and Coding.

- **Description:** This Software is made something different technique and i have worked upon sharing part if anyone who share a product of amazon, flipkart, snapdeal via this so first user

who share these product those get some reward from us.so in this i have work something other.

Personal Details

Name : Randheer Kumar
Date of Birth : 25/08/1993
Passport : V2286857
Father Name : Anil Prasad Singh
Present Address : Ward No.1, Vill+Post-Balthari, Via-Biraul,
Distt.- Darbhanga, Pin-847203 (Bihar).

Permanent Address : Ward No.1, Vill+Post-Balthari, Via-Biraul,
