WORKING EXPERIENCE

Organization : Bitstreaks Technology
Designation : Senior UI/UX Designer
Duration : 1st April 2023 to Present

Bitstreaks Technologies is a leading Faridabad-based digital agency offering creative solutions in web design, branding, animation, and social media to help businesses grow and thrive.

- Experience in designing **UI/UX**, **websites and mobile applications**, along with creating **wireframes**, **walkthroughs**, and **presentations** for both desktop and mobile platforms. I also have hands-on **development experience** using **HTML**, **CSS**, **JavaScript**, and **jQuery**, which helps me bridge the gap between design and development.
- Designed **high-fidelity mockups** and **interactive interfaces** using **Figma, Adobe XD, and Photoshop** that align with both **brand guidelines** and **business goals**.
- Conducted **qualitative and quantitative research** with end-users, leveraging their **feedback and data** to enhance design. Spearheaded projects encompassing all aspects of **UX/UI design** including **research, wireframes, design, and testing**.
- **Mentored and supported junior designers**, enhancing their skills and helping them grow within the organization.
- Responsible for the **entire product experience** including **Personas, user scenarios, user journeys, UX specs, task flows, wireframes, visual design, prototypes, and typography**.
- Collaborated with **stakeholders and product managers** to transform **business needs into intuitive designs**.
- Delivered **projects under tight deadlines**, maintaining a balance between **creativity and business objectives**.
