Kukutla Ashok

Opentext Exstream Developer at DXC Technology (EIT Services India P. Ltd)

✉ : **kukutlaashok94@gmail.com**
📱 : **8555835882**
🗺 : **Hyderabad, India**

Work Experience Summary

➢ Over 6+ years of experience in Design and Development using **Perl** and **HP Exstream Technologies**.

➢ Developing and prototyping software to deliver communications across multiple channels for the customer communications division. My work primary involves writing efficient code as per client requirement rules using Perl scripting.

➢ Very comfortable working in UNIX/LINUX environment and in handling columnar files, Delimited files, xml files and Fixed length files.

➢ Having good knowledge in **Exstream Cloud Native, Command Center, OnDemand, Exstream16V**. Involved in checking all systems working UP in command center.

➢ Very comfortable working on messages, dynamic images, tables, sections, flow pages, all kinds of frames, tagged text, inline objects, post sorting, coding, output queues. etc.

➢ Involved in analyzing the client requirements. Leading the team in different projects. Training the fresher's and, working on **HP Exstream tool**, Perl, involving in gathering the client requirements. Unit Testing. Code Review.

➢ Having basic knowledge on **SQL**.

➢ Have experience in **Perl Scripting, Shell Scripting, Linux and UNIX.**

➢ Impressive interpersonal and analytical skills; Good interpersonal and communication skills

Job Title History

Current Employer	**: DXC Technology**
Designation	: Professional 1 application Delivery.
Experience	: April- 2022 to till date
Domain	: Banking, Health Insurance

First Employer	**: Broadridge Financial Solutions Pvt Ltd,** Hyderabad. (Product Based Company)
Designation	: Senior Member Technical
Experience	: May-2018 to March -2022
Domain	: Banking, Health Insurance and Finance

Technical Summary

Programing Languages	: Perl scripting, OOPS concepts, Basic SQL, Shell scripting
IDE & Tools	: MYSQL
Web Technologies	: XML
Operating Systems	: Windows and Unix/Linux
Functional	: Good understanding of IBM's (**AFP**) Advanced Function Presentation
Tools	: Opentext Exstream, WinSCP, Putty, ESP, Notepad++, HP Exstream.
Other Tools	: Exstream Command Center, OnDemand Exstream.
Version Control Tools	: Perforce, GitHub (basic knowledge), Dimensions.
Cloud	: OpenText Exstream Orchestration

Project Experience

Project: Application Delivery
Organization: DXC Technology
(2022 – Till Date): Client - Guardian Life insurance

- Have been involved in design, development, and unit testing of applications built using **HP Exstream**.
- Worked in different Exstream version like V9, V16, V22(Cloud Exstream Orchestration)
- Involved in migration of Exstream applications from on-prem to Cloud Orchestration.
- Having experience in **OnDemand Administration** where I will be working on giving access to different users to access the folder and applications based on their requirement.
- Having experience in **OnDemand Client** where we used to unload the documents if anything wrongly mapped to the customer data.
- Having experience in One time mailer where I used to mail to the end customer with the help of Command center after developing the Application in Exstream.
- Have been involved in Designing applications. Generated different type of outputs like Html, AFP/PS. And worked on Placeholder concepts where client will send pdf document directly for physical mailing. The generated PS outputs sent to print team.
- Having good understanding on AFP structure.
- Given KT to all associates in my team about Application, creation of pages, Documents, Environment section, Page template, Tag sets and soon.
- Have been involved in writing batch scripts and shell scripts for small automations.

BRCC

Description

Companies in banking, brokerage, health care, insurance, mutual fund, telecommunications and other consumer-facing industries use the Broadridge Customer Communications (BRCC) print services to distribute essential customer communications. These forms of communications include bills, statements and tax documents, and can share through any of the digital channels, based on consumer preference.

Roles & Responsibilities

- Designed, development and unit testing of the applications.
- Built using Perl, OOPS , XML, HP Exstream, Linux and other Broadridge tools.

Technologies

- Perl, Python, HP Exstream, XML, Perforce, SCO, Putty, WinSCP, CA Workload Automation ESP

Project Overview:

Have been involved in design, development, and unit testing of applications built using technologies such as Core Java, XML, Perl, JavaScript and other Broadridge inbuilt tools. Application will process the files and generate the xml output with business rules which is written in Perl scripting and then integrated with designed template with HP/Compart Docbribdge Workbench tool and apply the factory controls so that printers can recognize alignment, front, back page and last page of the statement. We add extra content to the statements like campaigns and IMB (Intelligent Mail Barcode) and several other such content to statements. Technology worked in this project: Perl Scripting, Linux/UNIX and XML, Hp Exstream (Opentext Exstream).

Project: Client Systems
Organization: Broadridge Financial Solutions Pvt Ltd
Clients: multiple: TDBANK, NW FIBER, Fidelity, Hyundai Capital America Statements, citizens, J&J vistokon, Morganstanley, Principal pfgpdf, Atria, Charles Schwab

(2021) : Atria, Principal ,Principal RPN, Charles Schwab
- Played a key role from Requirement Gathering–Development–Performance Testing till Deployment.
- Extended support for the Incidents after Production Deployment.
- Worked closely with Client and onshore team on a regular basis without any escalations and very minimal assistance
- Consistently met deadlines for all quarterly requirements by working seamlessly with my peers.
- Worked along with multiple QAs during critical deliverables to ensure there is no negative impact on the timelines.

(2019) : TDBANK, NW FIBER, Fidelity …
- Involved in analyzing the client requirements and once System Required document is out, will go through it completely and let client knew, if any data is missed for successful implementation of design
- Using Perl scripting data will be validated as per client requirements also worked on Cron jobs to run script automatically on time-based events.
- I have lent a hand to other associates in the team when there where code issues and helped them to achieve tasks in time.
- Resolved multiple Production Incidents and fixed bugs after taking over the project with no to minimal assistance.

(2019 - 2020) : Hyundai Capital America Statements, Citizens, MoraganStanley, J&J Vistakon …
- Worked on Pre-processing the data using perl to get required output that will be used by Exstream like xml, AFP outputs.
- Used Perl scripting to automate the processes like combining the multiple programing languages to execute one by one to get required final output.
- Involved in Coding part in Perl scripting, HP Exstream.
- Responsible for Daily & Weekly status updates showing the progress of development.

Accomplishments

- Multiple appreciations and ACE rewards from On-Shore Senior Project Manager for great efforts towards the projects.
- Received Star Performer of the Quarter at Broadridge for extended support towards the project and meeting the stringent deadlines.
- Expertise in conducting multiple training sessions to cater Product and Domain knowledge to folks newly joining the team.
- I was awarded as "Mr. Dependable boy" for my extraordinary contributions towards Atria and Principal pfgpdf Projects.

Education

B-Tech : **Vardhaman College of engineering** (CSE) aggregate: **82%** June 2014 - May 2018
Vignan Junior College with aggregate of **93%**
Krishnaveni Talent School with aggregate of **75%**

Personal Details

Date of Birth: 17-05-1994. **Permanent Address:** D.no: 13-1-429/1, 13th ward, near railway station road, Macherla- Guntur (dist.) - 522426.
