Description of the project:

Ocean Spray Cranberries, Inc. is an American agricultural cooperative of cranberry growers headquartered in Plymouth County, Massachusetts. It currently has over 700 member growers (in Massachusetts, Wisconsin, New Jersey, Oregon, Washington, Florida, British Columbia and other parts of Canada, as well as Chile). The cooperative employs about 2,000 people, with sales of $1.2 billion in fiscal year 2013 and accounts for 70% of North American cranberry production.[3] Their products include cranberry sauce, fruit juices, fruit snacks, and dried cranberries.

The cooperative has made a number of innovations, including the first juice blend,[4] the first juice boxes,[5] and sweetened dried cranberries (Craisins). Its cranberry juice won the ChefsBest Award for best taste.[6]

Ocean Spray has juice-filling facilities in Henderson, Nevada; Sulphur Springs, Texas; Allentown, Pennsylvania; and Kenosha, Wisconsin.

Responsibilities:

- Involved in development of multiple maps like 850,856, 810,855,860

- Involved in weekly and monthly client status calls.

Project#1	:	**Flowers Foods.**
Client	:	Flowers Foods US
Role	:	EDI consultant
Technologies	:	Sterling Integrator 6.0.3, Sterling Map Editor
Protocols	:	HTTP/S, HTTP, SFTP,AS2
Duration	:	March 2022 to July 2023

Project Description:
In 1919, brothers William Howard and Joseph Hampton Flowers opened Flowers Baking Company in Thomasville, Georgia. Flowers Foods, headquartered in Thomasville, Georgia,

is a producer and marketer of packed bakery food. The company operates 47 bakeries producing bread, buns, rolls, snack cakes, pastries, and tortillas.Flowers Foods has two operating segments: The Direct Store Delivery (DSD) and the Warehouse. The DSD Segment handles fresh bread, buns, rolls, and snack cakes that are sold regionally through a network of independent distributors.

Flowers' Warehouse Segment is responsible for the national distribution of frozen snack cakes, bread, and rolls that are sold directly to the customer's warehouses. The project involves development, Maintenance and support of EDI implementation with Flowers customers. EDI is being used as middleware to integrate its various EDI trading partners. It works on different legacy systems to support their B2B transactions as well in communicating with their trading partners.

Responsibilities:
- Good Experience in production map enhancements and existing setups as per the requirement.

- Responsible for finding and resolving communication failures and EDI data failures.

- Providing the support for Retail Transaction like 850,856,810,855,860,820, 875,880,940,944,945.

- Worked SAP Partner Profile setup

- Worked on maintenance of Output Condition records for the Billing and Shipping.

- Worked on SAP Idoc Monitoring.

- Good Experience in resolving issues from business users as well as customers.

- Responsible for providing 24x7 production support from offshore and educating the business users about the EDI Landscape.

- Involved in P1&P2 bridge calls when there are any severity incidents reported and providing the required information from EDI

- Coordinating offshore activities with Onsite team and Involved in Daily Stand up Call.

- Providing the On-Call support during weekends.
