PROFESSIONAL SUMMARY

Engineering Professional having around 5+ years of experience.

Results-driven QA Engineer with 4 Years experience in **SAP TOSCA automation**, **SAP OTC (Order-to-Cash)** processes, **DEX execution**, and **manual testing**. SAP OTC processes using SAP GUI, Fiori, and Web applications. Proficient in creating and maintaining **test cases, libraries, TDS, RTB, and test events** in Tosca, with strong expertise in **end-to-end validation of SAP MM, SD, and EWM modules**. Skilled in **DEX parallel execution**, test planning, regression testing, and defect management, ensuring high-quality deliverables in Agile environments.

EXPERIENCE

HCL Technologies | Test Lead   **August 2022– Present | Hyderabad**
Project: GILEAD & LEGO

- Lead QA initiatives for SAP OTC end-to-end processes, ensuring complete coverage of Sales Order, Delivery, Billing, Pricing, and Credit Management workflows.
- Designed, developed, and maintained TOSCA automation frameworks, including module creation, reusable libraries, TDS, RTB, test events, and execution lists.
- Executed DEX (Distributed Execution) for parallel test runs, improving execution efficiency and reducing overall testing time.
- Mentored and guided QA team members on automation best practices, Tosca functionalities, and SAP OTC business processes.
- Collaborated with cross-functional teams in Agile environments, providing testing insights and ensuring alignment with business requirements.
- Implemented reusable test assets and optimized test cases to enhance maintainability and scalability of automation suites.
- Monitored defects, performed root cause analysis, and ensured timely resolution to improve overall product quality.

Qualitest Group Pvt LT D | Engineer   **April 2021 – July 2022 | Bengaluru**

PROJECT: DIALOUG

- Creating modules and develop automated test scripts in TOSCA for each Manual TC.
- Perform Functionality testing, Regression testing and Sanity testing on Need basis.
- Expertise in Creating Libraries, RTBs, Business parameters, Test Configuration parameter.
- Review and Maintenance of scripts developed.
- Experienced in TDS
- Expertise in performing GUI Automation.
- Involved in Sprint planning, sprint review, sprint retro and daily scrum calls.
- Involved in reporting, logging defects, and maintaining tasks in agile board for each sprint.
- Agile methodology is used for functional testing.
- Following STLC, defect management, stand up call

SKILLS

- **Automation Tools**: Tricentis TOSCA 2024.1
- **Testing**: Manual Testing (Functional & Regression)
- **Defect Tracking & Reporting Tools**: Delta Lake, JSON, CSV, Parquet, SFTP/FTP, API based ingestion.
- **Database**: MS SQL, GCP, TDS
- **Others / Productivity Tools:** Microsoft Office, Postman, JAMA
- SAP OTC (Order-to-Cash) – Sales Order, Delivery, Billing, Pricing, Credit Management, Invoicing

CERTIFICATIONS

- **[ISTQB Certified]**
- TOSCA Automation Specialist level 1 &2
- Tricentis Test Design Specialist Level 1 TDS1 & TDS 2
- Tricentis Automation Engineer Level1.
- Tricentis Automation Engineer Level2.
- SAP Automation Specialist.

EDUCATION

MBA (Osmania University) (St. Xavier PG College)   **Sep 2017 – June 2019**

Bachelor of Technology, DVR College of Engineering & Technology   **Sep 2013 – June 2017 |**
